

Elevator Reflection
Ye'ela Wilschanski.

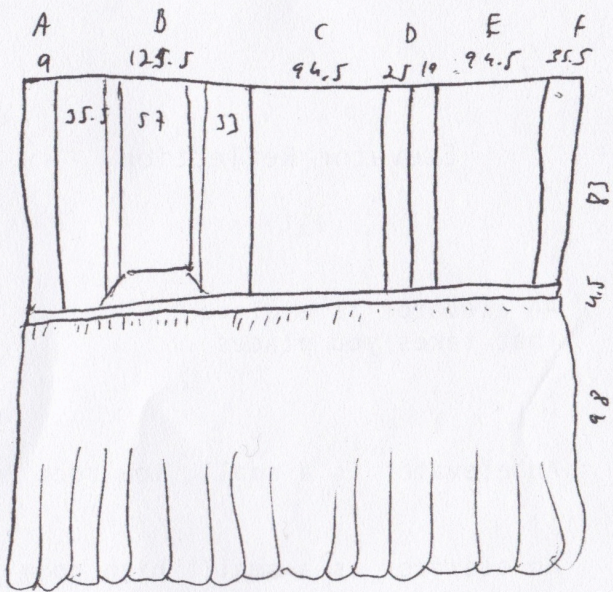

Elevator Reflection

An elevator is a place
that takes you places

An elevator is a small, low room

An elevator is a small, high room

An elevator appears static,
yet everything is different
when you leave

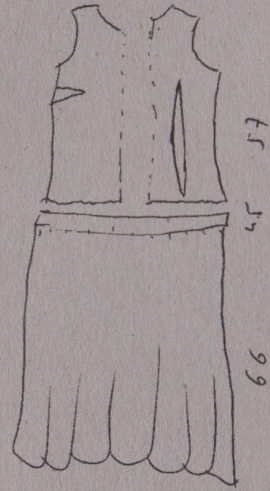

Can architecture wear an outfit

What kind of dress would an elevator choose

Do we dress like the space around us

Do we dress like the negative space around us

is the elevator attendant
a doula
